

WANT TO THANK A NURSE FOR EXTRAORDINARY CARE?

Diseases Attacking Immune System

The DAISY Foundation was formed in January 2000, by the family of J. Patrick Barnes who died at age 33 of complications of Idiopathic Thrombocytopenic Purpura (ITP). “Whenever he came across anyone in need, he never turned his back. He reached out to comfort, to make them feel okay.”

The Daisy Award is an international program that rewards and celebrates the extraordinary compassionate and skillful care given by nurses every day.

about the DAISY Foundation, visit
www.daisyfoundation.org

You may fill out the form and return it to a staff member of a nursing unit, or scan and email to
Melissa.Davis@stelizabeth.com.

NOMINATE A NURSE FOR:

**The DAISY
Award**

FOR EXTRAORDINARY NURSES
IN MEMORY OF J. PATRICK BARNES

GOALS OF THE DAISY FOUNDATION

- To recognize the ‘super-human’ work nurses do every day all over the country and to say, “Thank You.”
- To fund research to improve treatment and ultimately cure ITP and related diseases.
- To assist and inform people with ITP.
- To encourage bone marrow and blood drives, as the treatment of ITP can require massive amounts of both.
