FOUNDATION
imagine what we can do together

As St. Elizabeth's signature fundraising event, the annual Golf ParTee has provided nearly \$2 million in financial support for the overall health needs of our community, including assistance for the Heart & Vascular Institute and the new Clinical Research Institute. Over the past 37 years, this outing has grown from a handful of foursomes at one golf course to nearly 450 golfers with four tee times on three different courses. We expect this year to be no different, so please get your registrations and sponsorship requests in as early as you can. For your convenience, you can also register online by visiting www.stelizabeth.com/golfpartee.

Golf isn't your only game of chance for the day!

Not only could you walk away being the golf winner for the day, but how does \$5,000 or \$1,000 sound? Be sure to take a chance, or several, on the \$5,000 Grand Raffle, or the \$1,000 prize for your golf ball being closest to the pin when dropped from the helicopter.

You can also take a chance on other various raffle prizes the day of the golf outing. Tickets for the Grand Raffle and golf balls for the helicopter golf ball drop can be purchased throughout the summer by contacting the Foundation office at (859) 301-3920. You do not need to be present to win.

Grand Raffle — Tickets are \$25 each for a chance at \$5,000.

Helicopter Golf Ball Drop — Golf Balls are \$5 each for a chance at \$1,000.

Raffle Prizes — Tickets are \$5 each and are only sold the day of the event. Prizes may include golf clubs, a coffee maker, rounds of golf and some great Cincinnati Reds tickets, just to name a few.

Simple genetic test tells doctors which medicine is best for heart patient

Terry Arlinghaus' doctor told him he was a walking time bomb. Maybe three years, maybe three weeks. Clogged arteries were silently threatening the life of the 60-year-old Northern Kentucky man.

And he didn't even know it. "Believe it or not, I was feeling great. I had no problems," said Terry. But his wife, mindful that Terry's brother had a heart attack when he was 58, urged Terry to get screened for heart issues.

Surgery soon followed. St. Elizabeth Heart & Vascular Institute Cardiologist, Dr. Kevin Miller, implanted four stents on a Friday to open clogged arteries.

"I went back to work on the following Monday. So, I actually only missed work the day of the procedure," said Terry.

During his overnight stay at St. Elizabeth, Terry was able to participate in a Mayo Clinic-sponsored clinical research study to determine the best drug for specific patients to prevent blood clots from forming in the stents.

"When I was in the hospital, they approached me about the test," Terry explained. After talking to Dr. Miller, Terry gave the go-ahead. "They just took a swab from my cheek and that was the only thing I had to do," said Terry.

The genetic test shows if patients have a specific liver enzyme deficiency which prevents their body from using the anti-clotting drug Plavix correctly and may cause deadly complications. The test on Terry showed he was compatible and there was no issue with his body tolerating the drug.

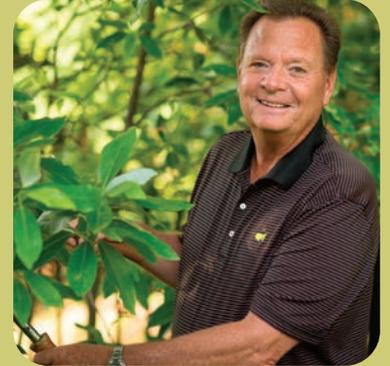

"This is customized medicine and this is where healthcare is going," said Cardiologist Dr. D.P. Suresh, principal investigator for the study at St. Elizabeth.

Dr. Miller said the test allowed him to discharge Terry from the hospital with a treatment plan tailored specifically for him. Doctors know that the aspirin-Plavix regimen doesn't work for as many as 20 percent of patients. But, "up until the advent of this test, we didn't know who they are," said Dr. Miller.

Within a week, Terry was back to all his regular activities including golfing, gardening, keeping up the yard and walking with his wife Nancy. He's feeling great and is noticeably less tired in the afternoons. "If I could, I'd golf every day of the week," he said.

Terry said Dr. Miller told him that Nancy, his wife of four years, "probably saved my life."

Terry's final word? "Get on the phone and make an appointment."

If you have questions about your heart health, ask your doctor. If you don't have a physician, please call (800) 737-7900 or visit stelizabeth.com to find a doctor who meets your needs.
