
St. Elizabeth Healthcare - Financial Assistance Policy

Objective

Consistent with its mission to provide comprehensive and compassionate care that improves the health of the people we serve, St. Elizabeth Healthcare is committed to providing Financial Assistance to every person in need of medically necessary treatment even if that person is uninsured, underinsured, ineligible for other government programs, or unable to pay based on their individual financial situation.

Policy

In order to provide the level of aid necessary to the greatest number of patients in need, and protect the resources needed to do so, the following guidelines apply:

- Services are provided under charity care only when deemed medically necessary and after patients are found to have met all financial criteria based on the disclosure of proper information and documentation.
- The Hospital Sponsored Financial Assistance Program (FAP) is available for uninsured patients and patients with self-pay balances after insurance.
- FAP is a charity program based on the patient's family income. Patients with family incomes at or below 200% of the Federal Poverty Guidelines (FPG) are eligible for 100% charity or free care.
- Individuals with an income level from 201% to 300% FPG are eligible for a 50% adjustment and individuals with an income level from 301% to 400% FPG are eligible for a 25% adjustment.
- The Patient's expenses and liabilities may also be considered in the evaluation of their eligibility for approval.
- Patients are expected to contribute payment for care based on their individual financial situation; therefore, each case will be reviewed separately.
- Charity care is not considered an alternative option to payment and patients may be assisted in finding other means of payment or financial assistance before approval for charity care.

Internal and external collection policies and procedures will take into account the extent to which a patient is qualified for financial assistance. In addition, patients who qualify for partial discounts are required to make a good faith effort to honor payment agreements with St. Elizabeth Healthcare, including payment plans and discounted hospital bills.

St. Elizabeth Healthcare is committed to working with patient to resolve their accounts, and at its discretion, may provide extended payment plans to eligible patients. St. Elizabeth Healthcare will not pursue legal action for nonpayment against financial assistance patients who have cooperated with the hospital to resolve their accounts and have demonstrated their income and/or assets are sufficient to pay medical bills.

Legal action, such as garnishing wages, may be taken in order to enforce terms of a payment plan if clear evidence exists that the patient has sufficient income and/or assets to honor the agreement. For financial

assistance patients meeting all requirements, St. Elizabeth Healthcare will cease all collection efforts on their account and will not send unresolved balances or bills to outside collection agencies.

Further information regarding the actions St. Elizabeth may take in the event of a denial and of nonpayment are described in a separate billing and collections policy. Patients will be asked to certify all information provided is true. If any information is determined to be false, all discounts afforded to the patient may be revoked, making them responsible for the full charges for services rendered.
